- A valid drivers license.
- Management experience as a Head Clinical Unit in Anaesthetic and critical care.

KNOWLEDGE, SKILLS, TRAINING AND COMPETENCIES REQUIRED:

- Comprehensive managerial and leadership skills to head the Department of Anaesthetics and Critical Care at Grey's Hospital, manage its operational and strategic matters, and coordinate relevant services in Area 2.
- Sound specialist knowledge and experience in anaesthesiology, perioperative care, resuscitation, airway management, pain management and critical care.

- Knowledge of critical care service delivery, including ICU bed utilisation, patient prioritisation, referral pathways, patient flow and continuity of care.
- Competence in developing, implementing and monitoring departmental policies, protocols, guidelines and standard operating procedures.
- Thorough understanding of financial management, resource allocation and optimisation, budgeting and expenditure control.
- Sound knowledge of Human Resource Management, including EPMDS, staff development, career pathing, recruitment and retention, labour relations, disciplinary processes and grievance management.
- Proficiency with computers and the Microsoft Office suite, including Outlook, PowerPoint and Excel.
- Risk and incident management, clinical governance, patient safety and quality improvement.
- Problem-solving, decision-making, analytical thinking and conflict-management proficiency.
- Excellent verbal and written communication, report-writing, time-management skills and professional work ethic.
- Clinical leadership, teaching, training, mentorship and supervision skills.
- Ability to work under pressure and maintain effective working relationships.
- Knowledge, understanding and implementation of Batho Pele principles.
- Knowledge of medical ethics, medico-legal risk and relevant professional standards, including appropriate clinical documentation and incident investigation.
- Knowledge of relevant legislation, policies and regulations of the Department of Health/DPSA, including the National Health Act, PFMA, SCM regulations and other applicable prescripts.
- Computer literacy and proficiency in the Microsoft office suite.

KEY PERFORMANCE AREAS:

- Head the Department of Anaesthetics and Critical Care at Grey's Hospital and manage its operational and strategic matters, including coordination of relevant services within Area 2.
- Ensure the provision of safe, cost-effective and high-quality anaesthetic and critical care services, including appropriate clinical cover for elective and emergency procedures.
- Oversee preoperative assessment, intraoperative anaesthetic care, recovery and postoperative support, in collaboration with surgical and other relevant clinical departments.
- Provide operational oversight of critical care services within the department's approved scope, including admission and discharge processes, bed utilisation, patient prioritisation and referral pathways.
- Formulate and execute annual operational plans and medium- to long-term departmental strategies aligned with the Department of Health's priorities.
- Develop and implement strategies to meet APP and other performance targets, including theatre utilisation, cancellation rates, ICU bed occupancy, patient flow, clinical outcomes and waiting times, as applicable.
- Manage staff performance, EPMDS, recruitment and retention, labour relations, disciplinary processes, conflict management and grievance handling.
- Ensure appropriate staffing levels, skills and competencies of departmental personnel, including sessional practitioners where applicable.
- Promote teaching and training of registrars, medical officers, interns, nursing personnel and undergraduate students, including postgraduate supervision and academic programmes.
- Maintain liaison with the relevant departments and training institutions at the University of KwaZulu-Natal, CMSA, HPCSA and other academic partners, as applicable.
- Ensure clinical governance through regular morbidity and mortality meetings, clinical audits, utilisation reviews, incident reviews and quality improvement activities.
- Maintain and review the departmental risk register and implement measures to prevent and manage clinical, operational and medico-legal incidents.
- Design, implement and evaluate quality assurance and improvement programmes to reduce patient safety incidents and improve service efficiency.

- Participate in quality initiatives, including QA meetings, implementation of the Ideal Hospital Realization and Maintenance Framework, norms and standards, and OHSC-related activities.
- Manage budgets and resources prudently and ensure that essential anaesthetic and critical care equipment, medicines, medical gases and consumables are available, functional and appropriately maintained.
- Work with Finance, Supply Chain Management, Clinical Engineering and relevant hospital units to address equipment downtime, procurement delays and resource constraints.
- Chair and participate in relevant committees at Grey's Hospital as required.
- Maintain accurate departmental records and statistics, including theatre activity, anaesthetic procedures, critical care utilisation and clinical outcomes.
- Work collaboratively within the Pietermaritzburg Metropolitan Hospitals Complex, with referring hospitals, DCSTs and EMS.
- Oversee and support outreach, in-reach and approved virtual support programmes in Area 2.
- Manage and address client complaints involving the department and ensure appropriate follow-up and corrective action.
- Provide specialist advice to clinicians on anaesthetic, perioperative and critical care management within the scope of the department.
- Undertake clinical duties, including commuted overtime, as required and in accordance with prescribed requirements.
- Serve as acting Senior Manager: Medical Services when required and formally delegated.
